

# IMPROVEMENTS UNDER WAY AT STURTEVANT DEPOT

Photos by SCOTT ANDERSON [scott.anderson@journaltimes.com](mailto:scott.anderson@journaltimes.com)

**Left:** Insulated glass window frames lay on a grassy area near railroad tracks outside the towers of the Sturtevant train station on Monday. Rasch Construction and Engineering is enclosing the twin towers so they can be climate controlled throughout the year. The towers were previously open to the elements. **Right:** An employee of Rasch Construction and Engineering performs work on the crossover of the railroad tracks.
